Course: TallyPrime from Tally Education

Objective

Students enrolling or enrolled to TallyPrime not only spend multiple hours of lucrative jobs but also allows the students of various fields to affordably learn new skills from experts.

Employers prefer candidates who are adept with TallyERP9 and TallyPrime. Many companies heavily depend on these applications for everything from company communication and documentation to project management, Accounts management, Inventory management and Stocking.

The material (workbook) is prepared to meet the demanding human resources of the industries on accounts, accounts payable, accounts receivable, General ledgers, preparation of financial reports, GST, and inventory management.

The training program covers the process of accounting the Manual accounts using Tally software. In the process students get experience on Company case study, Project implementation, End user, and Reporting.

The training program also prepare the students to become an entrepreneur by having their own Accounting & Tax consultancy firm.

To get all the benefits, we recommend the students to work with all the assignments given in the workbook, experience the practical knowledge and to improve their skills with confidence, to get benefited with more job opportunities.

Looking for the students to get hands on experience in the training session.

Education is going through new transformation and, therefore, it will have to evolve in the direction of new globalizing knowledge society. The attempt is very important to ensure the knowledge society starts off successfully by bringing together the entire set of present day values that must prove the capacity of recreating the attitudes and practices of global society.

Technological innovation offer the potential to improve efficiency and productivity through the use of novel resources, increased patient engagement, reduced patient burden, and improved trial management. Exploiting new technologies in the design of clinical trials will require the drug development community to apply the lessons learned from other industries, including an increasing focus on the consumer. Since study participants today seek clinical trials with a high level of experience and comfort using technology in their personal life and consumer technology companies have built digital assets and the capacity of innovation for user experience, UI/UX and bio-sens (mobile apps) using these companies provide clinical trial to research and development community.

The Session started with a warm welcome note. Followed by introductory note on pharma, resource person started the session with a brief note on the connection between Technology, Clinical Research. Then he gave a detailed description on various departments present in pharmaceutical company and their roles.

The pharmaceutical industry is very vast and is good. Let's divide the pharmaceutical industry

1. Core Pharmaceutical jobs: This includes manufacturing, pharmaceutical analysis, formulation, methods, Regulatory and patenting, Clinical Pharmacy, Quality control and Quality Assurance and Research and Development.

2. Non-core pharmaceutical jobs: Sales and marketing - Human resource department, Admin office, Consulting.

Now for the core pharmaceutical jobs

a. Manufacturing department:

Role: Overlooking the manufacturing process from the first step to the final step. Reporting of deviations and rectifying them.

B. Quality control and Quality Assurance teams:

Role of Quality Control.

Qc is a department which is involved in Analytical research and Quality team.

Analytical research team develop new method validation methods for the samples.

Quality control team only test for the purity of the samples produced or given.

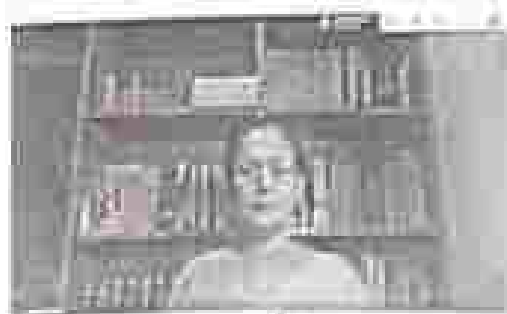

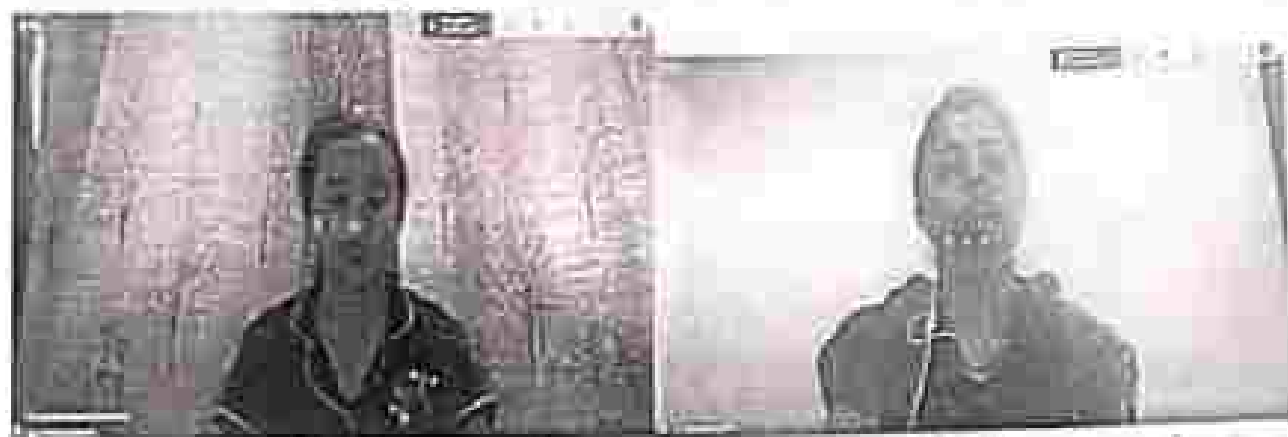

Role of Quality Assurance

Report on Workshop CMS

The Department of Computer Science-Tech Vision has organized two days workshop from 8th December to 9th December 2020 on the topic "Content Management System" in association with SJRCW Alumni from 9.00 am to 4.30 pm. All the students of our college have actively participated and gained hands-on experience in this workshop. The resource person is Ananda M, student of K.V College of Engineering, Bengaluru. The program is provided by Dr.Vedavandhy, K.R. Hon.President, SJRCW, Sri Prabhakar Kalimuthu, Hon. Secretary, SJRCW and Sri. Virendrabalaiah, Hon. Treasurer, SJRCW. The key note address is given by Dr.Premal Siddanaji, Principal, SJRCW. Moderator, Jagritha, Asst.Prof was there for two days workshop. Rakhi Sharma, Asst.Professor gave the welcome speech for first day. The second day welcome speech was given by Nandika G Y, Asst. Professor. The resource person introduction was given by Smt.Rashmi A, HOD, Department of Computer Science. 120 students participated in the workshop.

The resource person has started the first day of workshop with the presentation on the various topics related to Content Management System. Content Management System is a web application that provides capabilities for multiple users with different permission levels to manage web page without HTML Knowledge. The two major components are Content Management Application (CMA) and Content Delivery Application (CDA). Some of the features are SEO-friendly (URL), Group-based permission systems, Full template support and customizable templates, Admin panel with multiple language support, Content hierarchy with unlimited depth and size and minimal server requirements. The concept WYSIWYG (what you see is what you get) editor or program is one that allows a developer to see what the end result will look like while the interface or document is being created. She has also explained an enterprise content management system (ECM) which consists of documents, details and records related to the organizational processes of an enterprise. The purpose and goal is to manage the organization's unstructured information content. Some of the examples are Drupal, WordPress, Joomla etc.

Resource person explained the purpose of using Drupal i.e. it is used for Rapid Website Development, Scalable (has all extensions, hooks, API), It's Secure (ACLs, user authentication, permission, Multilingual, Custom Content Type (CCK), Powerful Template System), Easy to Update, Version Control system and also given the requirements of Drupal

11/12/2020

such as Web Server (Nginx, Apache, Lighttpd, IIS), Database (MySQL, MariaDB, MongoDB, PostgreSQL, SQLite, MSSQL), PHP 5.2+, XAMPP/WAM, LAMP Servers and MAMP servers. She has also explained the installation procedure of Drupal with screen shots.

Resource person also concentrated on the other CMS software Wordpress which is a free and open source blogging tool and a cms based on PHP and MySQL which runs on a web hosting service. WordPress is used by more than 18.9% of the top 10 million websites. Also discussed the benefits of this software like it is Free, Easy to use, Control is in user's hands, SEO Advantages & SEO Friendly, Simplicity and flexibility. Installation and setup procedure of WordPress is explained. She has also given the steps for content creation and content deletion with examples and also discussed some of the advantages of content management system software such as user-friendliness, quick deployment, easy for the non-technically minded, easy to maintain and update, user management and access permissions to other users, easy to check and manage history i.e. what is edited on the website, SEO-friendly features and plug-ins, Plug-ins and extension are easy to install and use, 24/7 developer and community support and the disadvantages are: The slow loading speed of a website, SEO features are limited and may require a further purchase and difficult for dynamic pages and expensive design and plug-ins for the addition of certain special features to the website.

The second day of workshop was on developing websites using Wordpress. She has also explained code review i.e. making changes in Wordpress configuration file and working with WordPress locally using Xampp server. Installation of themes and plugins and enabling them in website. Publishing the edited pages and quick review of the website built. She also guided in such a way that, students have done the changes with their websites immediately. The students have benefited by this workshop to the maximum extent.

The two days workshop has ended with questionnaires and filling up the feedback form. Smt.Sowmyashree S proposed the vote of thanks.

SJR COLLEGE FOR WOMEN

Self-Defence Awareness Programme

Date 04/02/2020 Dr. Paramma Kuravati of physical education, Self-Awareness Programme, with Ganesha prayer at 10.30 am the program was started by lighting a lamp.

Sri. Rakesh Yadav D.C Karnataka State Muay Thai Coach, chief guest for the event and Dr. Harshini C.S Principal of SJR College for Women she was present at the ceremony.

Sri. Rakesh Yadav D.C Karnataka State Muay Thai Coach, Who Was The Chief Guest Addressed The Ceremony Progressively. Importance Of Skills The main objectives of the programme is to empower women, enable them to defend against any type of physical assault and to build self-confidence so that they can contribute meaningfully to their own development, shape their own destiny and capacity enhancement through Self-defence training.

The world can be a dangerous place for girls and women, as they often experience violence. They're often perceived as easy targets - and while this may not be true, there is still a disproportionate amount of violence conducted against them. Many parents of girls and girls themselves are interested in learning how to protect themselves against violent situations, but they are often not sure where to turn. Our martial arts classes are a safe space where women of all ages develop mental and physical skills to defend themselves against attacks.

We believe that every girl is strong and has to become aware of this internal power. In martial arts, girls practice making judgments about allowing others into their personal space and experience what it's like to give and receive respect. By participating in our classes, girls develop confidence, better decision-making skills, and a stronger character. Self-respect is taught, which allows girls to recognize situations in which they need to employ self-defense. Overall, there are many benefits teenager girls have from learning martial arts. Our programs help girls to develop their personality and grow into strong women. Women should have, at the very least, a basic understanding of the potential tactics and solutions required to deal with both social aggression and social violence. Knowledge of these situations will allow them to de-escalate when de-escalation is possible and fight back when it is their best and only option. While you can talk to your daughters about these situations, learning these skills through training will give them the ability to act.

Principal
SJR College for Women

Research proves women's self-defense classes give women the skills necessary to physically defend themselves as well as the confidence and ability to use the appropriate language and de-escalation techniques to help establish firm boundaries around behavior they believe to be appropriate and acceptable. For while it is important to teach boys and young men how to treat women, we cannot wait for these lessons to provide the cultural shift necessary to protect the women in our lives. Women's self-defense is the best tool to stop those who wish to exert dominance or those who seek only to destroy and One hour he thought the students some self defence Awareness skills demonstration with our students and last vote of thanks and end of session national anthem.

H ಜುಲೈ 2019ರ ಅಂತರಾಷ್ಟ್ರೀಯ ಯೋಗ ದಿನಾಚರಣೆಯ - ವರದಿ

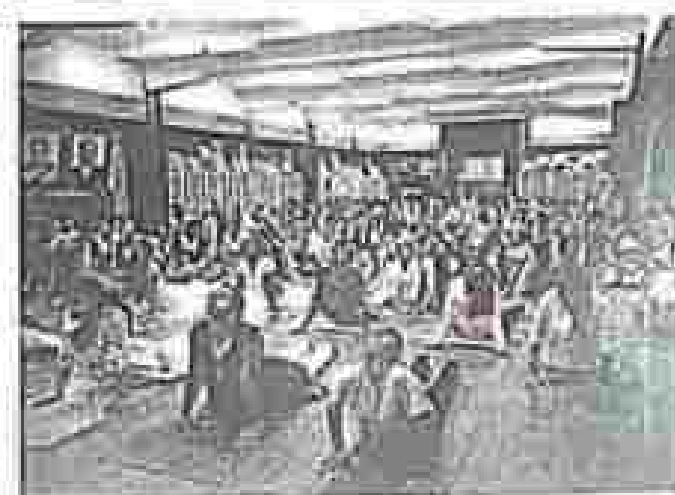

ದಿನಾಂಕ 21-06-2019ರಂದು ಕಾಲೇಜಿನಲ್ಲಿ ಅಂಚರಾಕ್ಷಿಯ ಯೋಗ
ದಿನಾಚರಣೆಯನ್ನು ದೈಹಿಕ ಶಿಕ್ಷಣ ನಿರ್ದೇಶಕರಾದ ಡಾ|| ಪಾರಮ್ಪು ಕುರುಬತ್ತಿ
ಅವರ ನಿರ್ದೇಶನದಲ್ಲಿ ಕಾರ್ಯಕ್ರಮವನ್ನು ಹಮ್ಮಿಕೊಳ್ಳಲಾಗಿದ್ದು, ಬೆಳಿಗ್ಗೆ 9:30ಕ್ಕೆ
ಗಣಿತ ಪ್ರಾಧ್ಯಾಪನೆಯೊಂದಿಗೆ ಯೋಗ ಪಿತಾಮಹರಾದ ಪತಂಜಲಿ ಮಹರ್ಷಿ ಅವರ
ಭಾವಚಿತ್ರಕ್ಕೆ ನಮನ ಸಲ್ಲಿಸಿ ದೀಪ ಹಚ್ಚುವ ಮುಖಾಂತರ ಕಾರ್ಯಕ್ರಮವನ್ನು
ಪ್ರಾರಂಭಿಸಲಾಯಿತು.

ಈ ಕಾರ್ಯಕ್ರಮಕ್ಕೆ ಮುಖ್ಯ ಅತಿಥಿಗಳಾಗಿ ಶ್ರೀ ನಿಶಿನ ಕೊರಳ್ಳಿ, ಯೋಗ ಶಿಕ್ಷಕರು, ಅಗಮಿಸಿದ್ಧರು. ಡಾ|| ಕೆ.ಬಿ.ವೆಂಕಟೇಶ್ ಶೆಟ್ಟರ್ ಅವರು, ಎಸ್.ಜಿ.ಆರ್. ವಿದ್ಯಾಸಂಸ್ಥೆ ಇವರು ಈ ಸಮಾರಂಭದ ಅಧ್ಯಕ್ಷತೆಯನ್ನು ವಹಿಸಿದ್ದರು. ಹಾಗೂ ಪದವಿ ಕಾಲೇಜಿನ ಪ್ರಾಂಶುಪಾಲರಾದ ಡಾ|| ಹರ್ಷಿ.ನಿ.ಸಿ.ಎಸ್. ಮತ್ತು ಪದವಿ ಪೂರ್ವ ಕಾಲೇಜಿನ ಪ್ರಾಂಶುಪಾಲರಾದ ಶ್ರೀಮತಿ ಕಲ್ಪನ ಅವರು ಸಮಾರಂಭದಲ್ಲಿ ಉಪಸ್ಥಿತರಿದ್ದರು.

ಮುಖ್ಯಅತಿಥಿಗಳಾಗಿ ಆಗಮಿಸಿದ್ದ ಶ್ರೀ ಎಚ್‌ಎನ್ ಕೊರಳ್ಳಿ ಅವರು ಸಮಾರಂಭವನ್ನು ಉದ್ಘಾಟಿಸಿ ಯೋಗದ ಮಹತ್ವವನ್ನು, ಶಂಕುಚಂಕವಾಗಿ ವಿವರಿಸುವುದರ ಜೊತೆಗೆ ಜ್ಞಾನಯೋಗ, ರಾಜಯೋಗ, ಕರ್ಮಯೋಗ ಮತ್ತು ಭಕ್ತಿಯೋಗಗಳ ಮಹತ್ವವನ್ನು ತಿಳಿಸಿ ಉತ್ತಮ ವ್ಯಕ್ತಿತ್ವವನ್ನು ರೂಪಿಸಿಕೊಳ್ಳಲು ಯೋಗ ಕುಂಬಾ ಸಹಾಯಕಾರಿಯಾಗಿದೆ. ವಿದ್ಯಾರ್ಥಿಗಳಿಗೆ ಅಜ್ಞಾನಿಯೋಗದ 3 ಶಂಕುಗಳಾದ ಯಮ, ನಿಯಮ, ಆಸನ, ಪ್ರಾಣಾಯಾಮ, ಪ್ರತ್ಯಾಹಾರ, ಧಾರಣ, ಧ್ಯಾನ ಮತ್ತು ಸಾಮಾಧಿ ಇವುಗಳ ಬಗ್ಗೆ ಅರಿವು ಮೂಡಿಸುವುದರ ಜೊತೆಗೆ ವಿದ್ಯಾರ್ಥಿಗಳಿಗೆ ವಿಕಾಸಕರ್ಮ ಮಹತ್ವವನ್ನು ಯೋಗದ ಮೂಲಕ ತಿಳಿಸಿದರು.

ಅಧ್ಯಕ್ಷತೆಯನ್ನು ವಹಿಸಿದ್ದ ಎಸ್.ಜಿ.ಆರ್. ವಿದ್ಯಾಸಂಸ್ಥೆಯ ಶೈಕ್ಷಣಿಕ ಅಧ್ಯಕ್ಷರಾದ
ಡಾ|| ಕೆ.ಬಿ.ಎಂ.ದಮೋದರ್ ಅವರು ವಿದ್ಯಾರ್ಥಿಗಳನ್ನು ಉದ್ದೇಶಿಸಿ, ಪ್ರತಿಯೊಬ್ಬರು
ಯೋಗವನ್ನು ಪ್ರತಿನಿತ್ಯ ಮಾಡುವುದರಿಂದ ಉತ್ತಮವಾದ ಆರೋಗ್ಯವನ್ನು
ಪಡೆಯಲು ಮಾತ್ರ ಸಾಧ್ಯ. ಯೋಗ ದಿನಾಚರಣೆಯ ದಿವಸ ಮಾತ್ರ ಯೋಗವನ್ನು
ಮಾಡದೇ ಪ್ರತಿನಿತ್ಯ ಯೋಗ ಮಾಡುವುದನ್ನು ಟೀವನದಲ್ಲಿ ಅಳವಡಿಸಿಕೊಳ್ಳಬೇಕು.

Report on the Add-on Course "Astronomy and Astrophysics" conducted by the Department of Physics in Collaboration with M.P. Birla Institute of Fundamental Research

Resource Person: Dr. S.Sujatha, Senior Scientist, MPBIFR, Bengaluru

Total Number of Hours: 30

Start Date: 13.01.2020

End Date: 28.01.2020

The course commenced with an objective to inculcate Scientific awareness on the subject Astronomy and Astrophysics among the students. The lecture and Practical Sessions were conducted both at the College campus and MPBIFR premises from 13.01.2020 to 28.01.2020. For the better understanding of the concepts Photometric and Spectroscopic analysis of Astronomical data was done through VIPED (Virtual Educational Observatory) activities & Stellarium software. Most of the lecture sessions were delivered through Audio visuals. Skygazing session was arranged using both reflecting & refracting telescopes on 24.01.2020 at M.P. Birla Institute of Fundamental Research. Projection view of sun to look for the Sun spots was made through Newtonian telescope. During night sky watch students were able to identify the some of the Constellations, stars, planet venus & also few satellites which are also one of the brightest objects in the night sky. Quiz, Crossword Puzzle, MCQ test and Seminars were conducted as a part of Student evaluation.

Details of the contents covered during the Add-on-course

Date	Time & Duration	Topics Covered
13.01.2020	1:00 to 3:00 p.m. 2hrs	Introduction to Astronomy, types of Objects in Solar system, stars, nebulae and galaxies
14.01.2020	1:00 to 3:00 p.m. 2hrs	Sun and Solar system, components of Solar system-planets, Minor planets, meteoroids, comets, salient features of each planet of Solar system
16.01.2020	1:00 to 3:00 p.m. 2hrs	Properties of Stars, distance scales, apparent and absolute magnitudes, Spectral classification of stars, luminosity classification
17.01.2020	1:00 to 3:00 p.m. 2hrs	Special lecture on comets by Prof. Margarita Safonova, Indian Institute of Astrophysics: observation and analysis of comets data. HR diagram description and plotting
18.01.2020	1:00 to 7:00 p.m. 6hrs Lecture & Practical sessions held at MPBIFR	Telescopes-types of telescopes reflectors and refractors, types of reflectors-Newtonian and Cassegrain. Mounts of telescopes, adaptive optics. Retrograde motion of Mars description and activity. Viewing of terrestrial objects through telescope. Constellations-circumpolar, Seasonal Zodiac constellations, co-ordinate systems. Introduction to Stellarium Software
20.01.2020	1:00 to 3:00 p.m. 2hrs	Star clusters, open clusters-properties globular clusters, clusters as tracers of galactic structure. Structure of Milky way. Crossword puzzle on General Astronomy and Sun and Solar System

This Memorandum of Understanding (MOU) is made on this Sixth of January, Two Thousand and twenty between S.J.R Degree College for Women, Rajajinagar, Bengaluru and Dr. Sujatha S., resource person from M.P. Birla Institute of Fundamental Research, Bengaluru.

Whereas a proposal has been submitted on request by the the S.J.R Degree College for Women to Dr. S. Sujatha on 6 January 2020 for providing the students of S.J.R Degree College for Women "Astronomy and Astrophysics" program for 30 hours, it is hereby mutually agreed and declared that the following shall be the terms and conditions of S.J.R Degree College for Women, Bengaluru & Dr. Sujatha S. to implement and complete the add on course successfully.

1. Responsibilities

- The Course Coordinator Manjula.S.N & the Resource person will meet every session to monitor the progress of the course and shall sort out issues if any.
- The Resource person will take the responsibility of evaluating the students.
- The M.P. Birla Institute of Fundamental Research, Bengaluru shall provide course material, if applicable.
- The timings shall be coordinated accordingly and maintained strictly with both the parties mutually agreed upon.
- The necessary software should be licensed version for conducting the course. The same will be installed and taken care during the tenure of the course and can only be uninstalled after the successful completion of the course.

2. Infrastructure

- The S.J.R Degree College for Women will provide necessary infrastructure for conducting classes.

Dr. Sujatha S.

1. Terms

The S.J.R Degree College for Women will pay 50% of the agreed amount for the course of the course in value equivalent of 20 (maximum of 70 students) and amount shall be paid in the course period on successful completion of the course.

ii) The College is located in Bangalore - 560011 PAN No: AVOPS4270R

1. Validity

a) The MOU will be effective from date it is executed by the respective parties and would remain in force till the course is completed.

The parties have executed this Memorandum of Understanding (MOU) in duplicate on this day in the presence of witnesses indicated below:

Syllabus for the add-on course in collaboration with the M.P. Birla Institute of Fundamental Research for the Academic Year 2019 – 2020

Department: Physics

Name of the Course Coordinator: Mrs. Majala

No. of Hours: Theory + Classroom / Computer activity sessions – 22 hrs

Min and Max number of students: Min: 20 Max: 30

Prerequisites: Any science under graduate who had taken Physics / Mathematics as their optional at the PUC / 12th level.

Objectives of the Course: The primary aim of this programme is to inculcate a scientific awareness of the subject of Astronomy among the young students and to motivate them to pursue careers in astronomy and astrophysics. It is planned to provide an in-depth exposure of the technical intricacies involved in the study of Astronomy and Astrophysics to such students who are found to possess an aptitude for the subject. This programme is also expected to set a platform for those students who would eventually be seeking higher studies in the subject and aspiring for further research work in Astronomy and Astrophysics.

Course Contents:

Sun and Solar System	2 hrs
Circulations and rotation	2 hrs
Retrograde motion of Mars	1 hr
Properties of stars	1 hr
Methods of estimation of distance to various celestial objects	1 hr
Colours of stars	1 hr
Spectral classification of stars	1 hr
Life cycle of stars	2 hrs
Galaxies	2 hr
Telescopes	2 hrs
CLEA project - VIREO activities	4 hrs
Careers in the field of Astronomy	1 hr
Seminars by students	2 hrs

Teaching/ Learning Strategies

Most lectures will be delivered using audiovisuals. Students will be given a basic exposure to photometric and spectroscopic analysis of astronomical data through VIREO (Virtual Educational Observatory) activities which will help in better understanding of the concepts.

Evaluation Methods (Parameters for Grading)

- i. Attendance – 20 marks
- ii. Activities – 20 marks
- iii. Class participation – 20 marks
- iv. Quiz / multiple choice questions test – 20 marks
- v. Seminar presentation – 20 marks

Grading system

The association is framed to conduct / build the skills of the students in order to get a suitable job in companies, as accounts, tax consultant or as an entrepreneur to provide services in the field of accounts and taxation. Keeping this as an objective, the syllabus is framed, to enhance the skill of the students. The training was conducted for the final year BCOM students from "Oct 2019 to 7th March 2020" by providing workbook, lab facilities and hands on experience in

1. Implementation

2. End user and

3. Reporting by using the reputed accounting package Tally ERP9

The training was provided by the industry experts from Tally Associated Partners. Students were helped to build their resumes with latest skills update on implementation, end user and reporting with respect to the job description (JD) required by the industry, like day today accounts responsibilities, cash book, bank book, accounts payable (AP), accounts receivable (AR), GST and to preparing financial reports. Which helps to take proper decisions in financial and other managerial activities. Finally, we are proud to announce that we have completed the training in association with IGSS for the benefit of our students. We the staff of department of commerce thank the Management, Principal and the staff of the IGSS to make this program a grand successful.

Association is framed in order to build the skills of the students by providing hands on training to meet the requirements of the industry as well further their higher education

Final year 35BCA students were trained to get experience on the industry demanding language Python, MySQL, Workbench, Web Framework - Flask and many other associated tools.

The training was conducted from December 2019 to January 2020. To enhance their confidence and skills in learning and execution of the programs, in addition to this the workbooks, lab facilities were provided and the discussion classes were conducted.

Each student was assigned a project to gain knowledge on Planning, Analysis, Design, Implementation and Maintenance concepts over their project in order to get the experience of the industry requirements. the training was provided from the IT industry experts which helps the students to get jobs in their fields and helps the students in their higher education. Total Duration :45 hours.

Day 1 27/12/19 Introduction, What? , why? , Features, basic syntax, keywords and identifiers, python statement and comments, input , output and import.

Day 2 28/12/19 Variables, rules, declaring, datatypes, Python number, string, Boolean

Day 3 29/12/19 Data types conversion, casting, list, tuple, sets, Dictionaries.

Day 4 31/12/20 Operators, Arithmetic , comparison, assignment, logical, bitwise, membership, identity, namespace.

Day 5 31/12/20 Flow control or decision making, if else statement with program, Loop, Python for loop and range function with lab program, while loop with lab program, while and else statements, while loop with if else and break, break and continue.

Day 6 4/1/2020 Function, Arithmetic operator, Arguments with lab program, Recursion in python, Lambda / Anonymous Function.

Day 7 6/1/2020 Variables scope, Global, local and nonlocal variable, Modules lab programs, Date and time, reference to all the legal format codes.

Mr. Krishna D. K.
Resource Person

Day 8 7/1/2020 File, Directories, Exception Handling, List programs, Python Built in Exceptions.

Day 9 8/1/2020 Oops concept, Python MySQL connection.

Python programming started with Introduction of python. And Installation of Software like Python IDE with Flask Framework.

□ Python Interpreter - Python 3.x

□ Code Editor - Web Framework Flask

Python is a general-purpose interpreted, interactive, object-oriented, and high-level programming language. Created by Guido van Rossum and first released in 1991, Python's design philosophy emphasizes code readability with its notable use of significant whitespace. Like Perl, Python source code is also available under the GNU General Public License (GPL). This gave enough understanding of Python programming language. The training from IGSS Technologies which provides Python Training provided the best python training that prepared our students according to industrial requirement. They provided practical python courses as compared to theoretical. They designed Python course content in such a way that it fulfills demand for every student who want to learn from basic python training to advance python training.

Python Training is a MUST for students and working professionals to become a great Software

Engineer specially when they are working in Web Development Domain. Some of the key advantages of learning Python:

- Python is Interpreted
- Python is Interactive
- Python is Object-Oriented
- Python is a Beginner's Language

An object-oriented paradigm is to design the program using classes and objects. The object is related to real-world entities such as book, house, pencil, etc. The OOPS concept focuses on writing the reusable code. It is a widespread technique to solve the problem by creating objects.

The concepts were explained theoretically and was done practically as well.

S. J. E. Laxmi
As a Senior Software Engineer

The rest of the workshop was covered by the following aspects of Flask. Flask is a Web framework that encourages rapid development and clean, pragmatic design. Built by experienced developers, it takes care of much of the hassle of Web development, so you can focus on writing your app without needing to reinvent the wheel. It's free and open source.

Process of Flask included:

- Installation
- Flask Framework
- Creating Views
- Display html page in Browser
- Run Server

Flask is considered more Pythonic than the Django web framework because in common situations the equivalent Flask web application is more explicit. Flask is also easy to get started with as a beginner because there is little boilerplate code for getting a simple app up and running.

MySQL Workbench is a visual database design tool that integrates SQL development, administration, database design, creation and maintenance into a single integrated development environment for the MySQL database system.

There were samples of framework and examples. Overall the workshop made students confident and knowledgeable.

The session started by a power point presentation

Highlights

- STEM to Enterprise Education Program
- Student Empowerment
- Accelerating Entrepreneurship Everywhere!
- Urban micro farming of commercial micro greens

Micro greens are tender (tiny robust plants full of flavor and nutrition. Micro Leaves are delicious and ideal for salads, main dishes, soups, as well as for garnishing. The intense flavor and vivid color add dynamism to any dish. In addition to their high nutritional values, they are considered "functional foods" which are known to have disease-preventing properties and health improving properties as well.

1. our production methods are organic, environment friendly, connecting with your community, enjoying quality time, getting healthier, and building a business you can be proud of. This is an untapped market with tons of potential for consistent, recurring revenue.
2. You can grow micro greens year-round indoors like clockwork, without having to manage the weather or many other variables
3. Micro greens return a higher profit per area compared to all other locally grown produce and vegetables
4. By growing them, you will eat them too! It's inevitable and your health will thank you!
5. You will expand your circle of friends and help support a community.
6. The startup costs are fairly minimal. You can utilize your customer base to launch a full-scale produce farm at any time, total time investment of about 20-30 minutes per tray, its fun world Plus, it's easy to scale up the business

What are Microgreens? Young, tender greens used to enhance color, texture or flavor of salads or to garnish main dishes. Harvested at cotyledon or 1st true leaf stage; used with stem and leaves attached.

Grow Your Own Microgreens workshop

Our endeavor is to connect urbanites of all ages to nature and gardens.

What are Micro greens? Micro greens are a young vegetable green with basic parts a central stem, cotyledon leaf or leaves, typically the first pair of very young true leaves. They have harvested anywhere from a week to two weeks after germination.

Commonly Grown Micro greens : pea, sunflower, corn, arugula, radish, nasturds, Broccoli, cilantro, Basil, mint, red cabbages, broccoli, spinach, beet (red), amaranth, celery, carrot, lettuce, Flax, chia.

Why are micro greens in demand? Micro greens are best eaten fresh and used as a garnish. They add a fresh crunch of flavor. These mighty greens can strengthen your health while also benefiting the world around us.

Better for You : grow delicious gourmet style micro greens in a variety of flavors and colors in urban settings, in small balconies, terraces, even without having open spaces. True beauty of these super foods are quick harvesting time, high nutrient density, easy management, Nutrient density, Less transit time, No pesticides, Light on the budget.

Better for the Planet: Less waste, Less pesticides, totally organic.

As Packed Nutrients : Phyto nutrients, Antioxidants, Vitamins, Minerals, Enzymes, Fibers and Essential Fatty Acids. Micro greens are "considered a functional food, Super food that promotes health or prevents disease."

As Food : Micro greens can be used in smoothies, salads, sandwiches, soups and also as jewelry on your favorite dishes.

Health and wellness: Provides healthy diet meals every day. Densely packed with an array of vitamins and minerals, our micro greens can serve as veg salads for diet, healthy foods to lose weight, glowing skin, help protect vision, fight against cancer, diabetes, revitalize tissue, calm inflammation, activate enzymes and detoxify the body.

Environmental impact of growing microgreens?

The world's population is growing, while Earth's resources are diminishing. Growing micro greens as a source of essential vitamins and minerals is good for the environment.

growing microgreens requires almost 10% of the space that growing tomatoes requires, but it requires much less water is required. (In addition, growing microgreens does not require the use of pesticides, and the area of their cultivation is limited)

from business scenario

Growing microgreens can be a lucrative business model, if planned and executed properly. It is not a get-rich-quick scheme, but the popularity of microgreens is growing exponentially. As the demand is growing for microgreens, the supply is still not that well-versed with the demand. That's the main source of profit for microgreens, at this point of time.

Is growing microgreens a viable business model? The overall success of business depends on many factors like location, your gardening skills, selling skills, but if we just look at the basic parameters of the business, then is it viable from that view point?

For deciding the viability of the business, there are two main factors we need to look at – Profitability and Sustainable over a long period of time

What are the total costs of growing microgreens

Starting a microgreens business requires very minimal investment and time

Fixed Costs ; Tray -20, lighting, racks

Variable Costs; Seeds, Growing mats, packaging

Significant factors to keep in mind that can make or break your microgreens business

The Anatomy of Micro greens Business

There are two main parts of this business, and to be successful you need to be an ace in both these parts.

Growing Selling

Growing Micro greens – Does it requires special skills? Growing micro greens is not that difficult, and you don't require any special skills to start growing. It's actually very simple. You just need to invest a small amount of time to ensure that you are growing the right micro greens at the right place

Activity based learning II

After the technical session II, oral feed back as well feed back on forms was taken from the participants. The programme ended by valedictory. We from Department of Biotechnology wholeheartedly thank the Principal and the management for their support.

Report on Guest Lecture - 21st Century Soft Skills

Organized by

The Department of English, SJR College for women Bengaluru, on 25th February 2020

Venue :Smt. Lalitharani and Chennabasappa Auditorium, SJR College for Women

Resource person: Smt. Roopa G S, HOD of BBA Department,

PES College, Nryvadanahalli

The program was presided by Incharge Principal Dr.Harshini C S

Smt Shiva Prakash (President), Smt N.R Nandish (Secretary), Dr. K.B. Vedanurthy (Academic Chairman) and management members have been the active participants even when they could not participate.

The programme began at 11.00 am in a formal way.

Miss Ayesha a student from final year BA invited the guest gathering. Miss Manasa student of I BA hosted the programme. After a brief introduction about the guest lecture, our principal briefed about the communication skills, she signified the prominence of the English language and communication skills.

Smt. Roopa G.S the resource person delivered an eloquent, impressive speech on the 21st century soft skills, her depth of knowledge was so vast, she encouraged the students to cultivate the habit of reading in library, by going through different varieties of books available in library. She said reading plays a major role in improving communication skills that is listening, speaking, reading and writing skills which are given more significance.

Communication, at its simplest, is the act of transferring information. The ability to communicate information accurately, clearly and as intended, is a vital life skill and something that should not be overlooked. Communication today is very important both in business world as well as in private life.

Listening and reading are the decoding aspect of speaking and writing. Speaking and writing are the encoding means to the problem solving agents. Communicative skills are very important and necessary tools to interact with students and to impart the knowledge.

Further she enlightened about Time management, innovative learning, digital learning and creative life style which are also the parts of soft skills. Through learning and innovation, students will be productive employees of the institution. It improves life skills and upgrades students' digital learning and social skills. They should learn how to treat people with respect and affection, they should also learn to smile with others. Smiling is a very important aspect of solving many problems in our daily routine.

She also spoke about Sympathy and empathy these are the words which deals with the relationship a person has to the feelings and experiences of another person. Sympathy is nothing but sharing the feelings of another, empathy is understanding the feelings of another.

Roopa G S
HOD of BBA Department
PES College, Nryvadanahalli

Soft skills are the skills that are not taught in a classroom. They are the skills that are learned through experience and practice. They are the skills that are needed to succeed in the workplace. They are the skills that are needed to be a successful leader. They are the skills that are needed to be a successful team player. They are the skills that are needed to be a successful communicator. They are the skills that are needed to be a successful problem solver. They are the skills that are needed to be a successful decision maker. They are the skills that are needed to be a successful manager. They are the skills that are needed to be a successful entrepreneur. They are the skills that are needed to be a successful innovator. They are the skills that are needed to be a successful leader. They are the skills that are needed to be a successful team player. They are the skills that are needed to be a successful communicator. They are the skills that are needed to be a successful problem solver. They are the skills that are needed to be a successful decision maker. They are the skills that are needed to be a successful manager. They are the skills that are needed to be a successful entrepreneur. They are the skills that are needed to be a successful innovator.

- Soft skills help to increase anxiety and stress reduction.
- Through soft skills one can learn to be empathetic with those who are in need.
- Soft skills help a person to get a better job.
- Helps a person to adopt the leadership qualities.
- Helps to be a good public speaker.
- Helps to be a good listener.
- And a technically skilled person.

Thus Soft Skills in 21st century comprises all above aspects. So Soft Skills are an essential part of improving one's ability to work with others in furthering the career, and building a successful individual thereby to build a resourceful society and it helps to build a powerful nation.

There was an interaction session, where in the students were asked to narrate any nursery story in English. The students participated with great enthusiasm and narrated the stories in unique ways. The students also enjoyed the second activity of narrating 2 line open ended story. In the Q and A session the students asked questions and clarified their doubts. The programme was very effective and informative, students and teachers enhanced their knowledge capacity.

at last not the least the programme ended with vote of thanks by Saniya Sahabath Assistant Professor, Department of English.

KANNADA DEPARTMENT – UTTUNGA
4 DAYS WORKSHOP
SUBJECT:- PERFORMING ARTS, SPEECH AND LANGUAGE OF
SPEECH.

Our S.J.R. College for Women conducted complimentary text and extra curricular activities on 16th September 2019 by the Department of Kannada. The Kannada Sangha specializes in the interest of the students, teaching them the art of Performing, the Art of Speech and the Language of Speech. JithureshTukkappa, Lecturer, BBMP College, Bengaluru, as Resource person to teach these skills. Learning Drama by students in three weeks, i.e., (23/08/2019, 20/09/2019 and 27/09/2019) from 1:45 pm to 3:40pm. How to converse? How should the performance come to be in that conversation? Gave a lengthy Explanation of what, how to prepare for Narratives. How to get hold of Language? He told the students about it. Opinions were gathered on 04/10/2019 by the students regarding this workshop. Students will learn best from the camp and master the performance, presentation and speech arts.

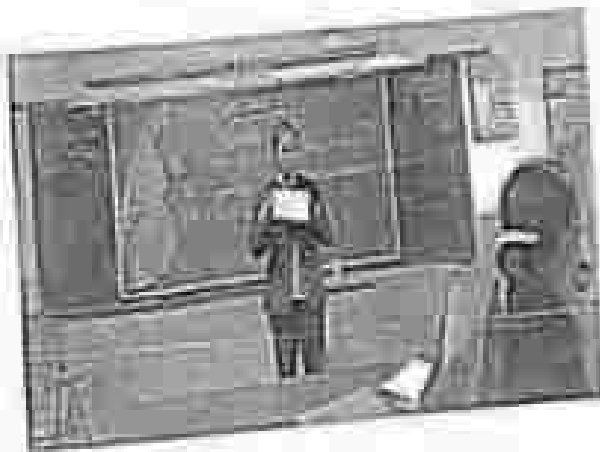

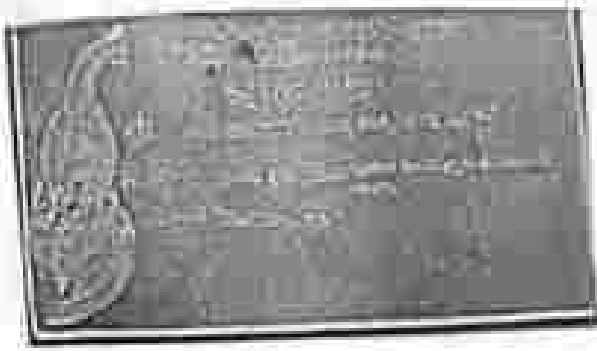

Tukkappa made the students to read some plays and taught them how to read drama. He also discussed how to perform facial expressions, casual acting and humor when performing roles in plays.

On 16th September 2019 and 11th October, 2019 a student was allowed to learn Kannada nudi Software in the college's English Lab. The complete information was given in the Nudi Software the Keyboards. The English keyboard for writing Kannada Letters were explained. Installing Nudi Software on a startup Computer and then how to extract the word file were explained. Students were taught how to write kannada letters. Each student was given an essay and taught them how to type kannada.

In today's competitive world, reading is just as important as writing. We also need to look at their future. Therefore the basic purpose of these learning is to enable the students to lead a self sufficient life by showing them alternative ways of life skills.

DEPARTMENT OF COMPUTER SCIENCE – TECHNOVISION

Student Development Program on- "Artificial Intelligence and IOT"

Date: 15/2/2020

AI is a booming technology which enables machines to mimic human behaviour. The overall Lecture consists of Data driven AI, Machine Learning, Deep Learning, and Reinforcement Learning.

- **Machine Learning:** It combines data with statistical tools to predict an output in other words machines do the action like predicting by statistical pattern present in data. Machine learning is an application of artificial intelligence (AI) that provides systems the ability to automatically learn and improve from experience without being explicitly programmed. Machine learning focuses on the development of computer programs that can access data and use it learn for themselves.

- **Deep Learning:** It is a part of the AI where prediction processes over many hidden layers to make right prediction.

Deep learning is an artificial intelligence (AI) function that imitates the workings of the human brain in processing data and creating patterns for use in decision making.

Deep learning is a subset of machine learning in artificial intelligence that has networks capable of learning unsupervised from data that is unstructured or unlabeled. Also known as deep neural learning or deep neural network.

- **Reinforcement Learning:** It shows a linear relationship between a dependent(y) and one or more independent(x) variables.
- **Other AI trends:** consists of Data science, IOT, Graphics hardware, Big data, videogames etc.
- **State of AI:** It includes games, visual recognition, communication hospitals etc.

The last part of guest lecture includes AI real time example and clustering, Anomaly detection etc.

Principal

The first semester end of investigation and answer session. Then professor Bhargava
presented the overview of IoT. The Overview of IoT is as follows.

We are developing a new era of computing technology i.e. Internet of Things (IoT).
IoT is a sort of "Global Global Neural Network" in the cloud, which connects various
things. The IoT is intelligently controlled devices and systems, which comprised of smart
machines, connecting and communicating with other machines, environments, objects and
networks. Identification (RFID) and sensor network
technologies and the Radio Frequency Identification (RFID) and sensor network
technologies will rise to meet this new challenge. As a result, enormous amount of data are
being generated, stored, and that data is being processed into useful actions that can
"command and control" the things to make our lives much easier and safer—and to reduce
our impact on the environment. Every organization such as companies and civil institutions
need up-to-date information about people. In this regard, most establishments either use
websites, emails or notice boards. However, it most of countries internet access is available
to people on systems and their mobile devices, so that the transferring of the information can
be much easier and less costly through the internet.

Internet of Things (IoT) term represents a general concept for the ability of network
devices to sense and collect data from around the world, and then share that data across the
Internet where it can be processed and utilized for various interesting purposes. The IoT is
comprised of smart machines interacting and communicating with other machines, objects,
environments and infrastructures. Now a day's everyone are connected with each other using
lots of communication way. Where most popular communication way is internet, so in
another word we can say internet, which connect peoples. The essential idea of the Internet of
Things (IoT) has been around for nearly two decades and has attracted many researchers and
industries because of its great estimated impact in improving our daily lives and society.
When things like household appliances are connected to a network, they can work together in
cooperation to provide the ideal service as a whole, not as a collection of independently
working devices. This is useful for many of the real-world applications and services, and one
would for example apply it to build a smart residence; windows can be closed automatically
when the air conditioner is turned on, or can be opened for oxygen when the gas oven is
turned on. The idea of IoT is especially valuable for persons with disabilities, as IoT
technologies can support human activities at larger scale like building or society, as the
devices can mutually cooperate to act as a total system. Communication capability and
remote manual control lead to the next step — how do I automate things and, based on my
settings and with sophisticated cloud-based processing, make things happen without my
intervention? That's the ultimate goal of some IoT applications. And, for those applications

S. J. R. College for Women
Hosur, Bengaluru-10

to connect with and leverage the Internet to achieve this goal, they must first become "smart" (incorporate an MCU/embedded processor with an associated unique ID) then connected and, finally, controlled. Those capabilities can then enable a new class of services that makes life easier for their users.

REPORT ON ADD-ON COURSE FOR "INTRODUCTION TO ARTIFICIAL INTELLIGENCE"

CONDUCTED FROM 17th AUGUST 2020 TO 31st AUGUST 2020

TOTAL NO OF HOURS CONDUCTED IS 30

Trainers:

G Venuath Kumar is a PhD Research Scholar at CHRIST, Bengaluru. He has an industry experience of 2 years with L&T Coimbatore Co-operative Society Ltd. His research interests include Artificial intelligence, Machine Learning, quantitative and qualitative software's like spss, Amos, tbsense, lucid charts, R, Python etc.

AI Course Description:

In this course, Students will learn the meaning behind common AI terminology, including neural networks, machine learning, deep learning, and data science - What AI realistically can- and cannot-do - How to spot opportunities to apply AI to problems in your own organization - What it feels like to build machine learning and data science projects - How to work with an AI team and build an AI strategy in your company - How to navigate ethical and societal discussions surrounding AI Though this course is largely non-technical, engineers can also take this course to learn the business aspects of AI.

of Zumbao Self Defense amount for the year 2018-19

① Zumbao - (2/2/18 - 20/6/18)
no. of student 112 x 200 Rs = 22400 Rs

→ Paid to coach = 10000 Rs

→ Refresher for coach & Assisted coach for 11 days 20x19 = 380 Rs

→ First aid (gluon) = 110x2 = 220 Rs
= 22400 - 10000

Balance amount = 12000 Rs

② Self defense (13/7/18 - 20/10/18)
no. of student 47 x 200 Rs = 9400 Rs

= 10000 Rs

11,000/- cash saved in → Paid to coach

1/11/18 → Refresher for coach = 20x19 = 380 Rs

Refresher → First aid (HMT spray) = 115x30 = 3450 Rs

Remaining Amount : 5000/- Zumbao amount to HMT activity

14/11/19 10000 + 9400 = 19400 - 10395 = 9005 Rs
Balance amount given to HMT = 9005 Rs

Report on NPTEL Online DBMS Course-2018-2019

About NPTEL:

The National Programme on Technology Enhanced Learning (NPTEL) was initiated by seven Indian Institutes of Technology (Bombay, Delhi, Kanpur, Kharagpur, Madras, Guwahati and Roorkee) along with the Indian Institute of Science, Bangalore in 2001. Five core disciplines were identified, namely, civil and engineering, computer science and engineering, electrical engineering, electronics and communication engineering and mechanical engineering and 235 courses in web/video format were developed in this phase.

The main goal of NPTEL Phase II (2007-14) was to build on the engineering and some science courses launched previously in NPTEL Phase I. An additional 60 web and video courses were created in all major branches of engineering, physical sciences at the undergraduate and postgraduate levels and management sciences at the postgraduate level. Several improvements such as indexing of all video and web courses and keyword search were implemented.

Some highlights:

1. Largest online repository in the world of courses in engineering, basic sciences and selected humanities and social sciences subjects.
2. YouTube channel for NPTEL – most subscribed educational channel, 1.6 million+ channel subscribers, 500 million+ views.
3. More than 5000 hours of video content.
4. Most accessed library of peer-reviewed educational content in the world.
5. 32000+ hours of transcribed content, 51000+ hours of narrated videos.

NPTEL Online Certification

The objective of enabling students obtain certificates for courses is to make students employable in the industry or pursue a suitable higher education programme.

Through an online portal, 4-, 8-, or 12-week online courses, typically on topics relevant to students in all years of higher education along with basic core courses in sciences and humanities with exposure to relevant tools and technologies, are being offered. The enrolment to and learning from these courses involves no cost. Following these online courses, an in-person, proctored certification exam will be conducted and a certificate is provided through the participating institutions and industry, when applicable.

The DBMS online course through NPTEL was first initiated by Computer Science Department in 2018-2019 to encourage students towards meeting the skills required by the

About DBMS(Database Management System)

Database Management System (DBMS) is a software for storing and retrieving information while considering appropriate security measures. It consists of a group of programs which manipulate the database. The DBMS accepts the request for data from an application and instructs the operating system to provide the specific data. In large systems, a DBMS helps users and other third-party software to store and retrieve data.

DBMS allows users to create their own databases as per their requirement. The term "DBMS" includes the user of the database and other application programs. It provides an interface between the data and the software application.

Application of DBMS

Sector	Use of DBMS
Banking	For customer information, account activities, payments, deposits, loans, etc.
Airlines	For reservations and schedule information.
Universities	For student information, course registrations, colleges and grades.
Telecommunication	It helps to keep call records, monthly bills, maintaining balances, etc.
Finance	For storing information about stock, sales, and purchases of financial instruments like stocks and bonds.

Dear Consulting Director/Attorney for C&S:

Dear Sirs:

On the subject, we would like to thank you for providing us with an opportunity for discussion on C&S / PROEDGE programs for your students.

As you know, we believe that preparing for professional education requires persistent effort, aided by positive feedback & high standards. With this approach towards teaching the two students we will certainly continue in a structured manner from early stages.

As we know, that working with your excellent institution will complement the learning progression. Here at PROEDGE, we would like to conduct Orientation program for your students. This would help them to understand and set their career goals and future standards. Each year students will be made aware for having this opportunity.

Thank you for the feedback.

Sincerely,

Dr. J. Campbell
